Tanker Rollovers

- ▶ Per ATCP 65 - Industry must report transportation accidents
- ▶ Determine what happened and the current condition of the bulk tanker & milk
- ▶ If milk is spilling out of the bulk tanker, MANDATORY notification to Wi-DNR
- ▶ If transfer in the field is possible, any salvaged product is now considered Grade B
- ▶ Milk must be transferred in sanitary manner (from manhole is unacceptable)
- ▶ New Bill of Ladings are needed for each load
- ▶ Confirm it is being delivered to Dairy Plant that processes Grade B milk
- ▶ Once details are reviewed the transfer is approved and the product can be transferred to a new bulk tanker

Industry Appointed Tanker Inspections

- ▶ Would like to encourage you to consider ATI inspection staff for your facility. Benefits for your company include-
- ▶ Need an inspection to renew the tanker permit each year
- ▶ Never have to call for an inspection appointment
- ▶ You can do the licensing- weekend, and evening inspections to better accommodate drivers
- ▶ Email datcpati@wi.gov for an application packet

We heard from you -

- ▶ We have improved staff training
- ▶ Improving consistency in procedures
- ▶ Focused on marking violations and following up on survey items

Questions

The background features abstract, overlapping geometric shapes in various shades of green, ranging from light lime to dark forest green. These shapes are primarily located on the right side of the slide, creating a modern, layered effect. The rest of the slide is a plain white background.
